Description	A medical writer, also referred to as medical communicator, is a person who applies the principles of clinical research in developing clinical trial documents that effectively and clearly describe research results, product use, and other medical information. The medical writer develops any of the five modules of the Common Technical Document. The medical writers also ensure that their documents comply with regulatory, journal, or other guidelines in terms of content, format, and structure. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.

Description	Pharmaceutical sales representatives (formerly detailmen) rare salespeople employed by pharmaceutical companies to persuade doctors to prescribe their drugs to patients. Drug companies in the United States spend —\$5 billion annually sending representatives to doctors. To provide product information, answer questions on product use, and deliver product samples. These interactions are governed according to limits established by the Code on Interactions with Health Care Professionals, created by the Pharmaceutical Research and Manufacturers of America (PhRMA). This code came into practice in 2002 and has since been updated to help define ethical interactions between health care professionals and the pharmaceutical companies. Subject: Requesting for permission to A ONE WEEK ADD-ON CERTIFICATE PROGRAM
Reg.

Respected Sir,

I am writing to seek your permission to A ONE WEEK ADD-ON PROGRAM ON 'DRUG REGULATORY AFFAIRS CHEMIST' on 29/04/2024 to 03/05/2024 for The Students. The program aims to familiarise participants. We believe that this program will align with our institutions goals and contribute to the professional development.

We would be grateful if you could grant us permission to conduct this program. We assure you that the event will be organized in a manner that does not disrupt the regular academic activities.

Thank you,

Yours sincerely

Description	The growth in advancement and up-gradation of technology in machinery has led to manufacture all kinds of Pharmaceutical Machinery in India. As low technology offerings have been faster in the initial stage, the Indian machinery today is considered as one of the value-added engineering's with the integration of new technologies. More than 350 facilities in India's pharmaceutical machine manufacturing industry are present. The India pharmaceutical machinery industry is currently catering to the segments of tableting and capsulation, powder processing, material handling, R&D equipment and instrumentation, coating, bulk drug plant installation etc. The SME sector facilitates around 800 pharmaceutical machine manufacturing and allied utility service units. Majority of these units undertake the supply of custom-made machineries using the location advantage of buyers and job works. The lecture started around 9:30 am and ended around 4:00 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The event ended with honorarium to the guests and vote of thanks.
