BEST PRACTICES SUCCESSFULLY IMPLEMENTED BY THE INSTITUTION

1. SPEAKER FORUM

Objectives of the practice:

ABC method - A: accuracy, B: brevity, and C: clarity

Practice:

- Allowing them to talk in English without the effect of their mother tongue.
- Students in the Interactive Communication Skills actively participate in group discussions, public speaking, debates, and presentations.

Obstacles faced if any and strategies adopted to overcome them:

- Student's fear of the English language.
- Student's hesitation due to inferiority complex.
- Fluent in English but struggles with presenting.

Outcomes:

- Admission in higher education and other competitive assessments.
- Knowledge improvement in technical and other skills.
- Placements have been improved drastically.

2. Industry Interaction:

The Industry Institute Interaction Cell is a programme that aims to promote interaction between industry and institutes in order to create employable human resources.

Objectives of the practice:

- The IIIC's mission is to foster ongoing collaboration with industry in order to close the gap between industrial opportunities and academic results.
- To encourage students to participate in industry training in order to gain the necessary exposure and experience.
- Organizing industrial visits for individuals

Practice:

- Third-party training partners and Industry expertise are used to deliver classes throughout the semesters.
- The necessity to bridge the gap between curriculum and industry requirements, as well as the demands that the sector places on new graduates.

Obstacles faced if any and strategies adopted to overcome them:

- Some students, particularly female students, are not sent on industrial visits or internships by their parents because they are afraid of taking their kid away from the college.
- Parents of students are encouraged to participate in industrial tours and visits by informing them about the importance of industrial awareness and the safety precautions that must be followed

Outcomes:

- The number of placements has increased.
- The applicants' employability skills were improved.
- The number of people with technical skills and those who are employable has grown
